

## 90. Knowledge College Summer Tutoring Programs

Before the summer began I didn't know what I was going to do to help my son. Then I found Knowledge College. My son was struggling with reading comprehension and some math concepts and it hindered his academic progress. Knowledge College developed a team of committed, caring, and educated staff and college student volunteers to help grades K-8, ~~with their~~. They assessed each child and created an individual academic plan to help them in the areas they need. My son stated "he has learned how to use strategies when he reads and feel more confident in himself". Thanks Knowledge College for your compassion to help kids in need during the summer break.

Sincerely,  
Laquita and Londell
